

digital transformation

This is an era of digitalization where cloud services play a significant role. Digital transformation leverages technology and data to fundamentally reshape organizational processes and decision-making. By integrating advanced AI tools with powerful data analytics, organizations can modernize operations and achieve better outcomes. Rather than relying on flawed analytics, data is interconnected, analyzed, and presented in ways that foster clear, confident, and accurate decision-making. The best AI services actively "read" your data, uncover insights, and highlight critical areas for attention. This approach equips your business with a faster, smarter cognitive capability that adapts to change, enhancing agility, efficiency, strategic insight and flexibility to thrive in a digital landscape .

Qualifications

Woman Owned
Disadvantaged Business
Minority Business Enterprise

Contract Vehicles:

Where data drivers progress

- Reinventing operations—accel bi empowers organizations to reinvent their operations by leveraging emerging technologies and existing data to optimize intelligent processes and workflows.
- Customized integrated solutions—Our customized solutions integrate systems, streamline operations, and transform information into actionable insights, facilitating faster decision-making, improved collaboration, and measurable outcomes.
- Tailored transformation—Each transformation is tailored to your unique goals, ensuring long-term adaptability and sustainable growth. We partner with leading technology providers—including IBM for AI-driven insights, and Google for advanced analytics and machine learning—to deliver secure, innovative, and scalable digital transformation.

Expertise at Glance

- AWS cloud services— AWS Certified Solutions Architect, AWS Certified Developer, AWS Certified SysOps Administrator, AWS Certified DevOps Engineer
- Azure cloud services— Microsoft Certified: Azure Administrator Associate, Microsoft Certified: Azure Developer Associate, Microsoft Certified: Azure Solutions Architect Expert
- Google Cloud Services— Google Cloud Certified - Associate Cloud Engineer, Google Cloud Certified - Professional Cloud Architect

Security and Identity

Our Strategic Partners

AWS

Amazon RDS, EC2, ES3, Lambda
Amazon Redshift, Athena
AI Services, Rekognition, Polly
Amazon WorkDocs, Chime

Azure

Azure SQL, COSMOS DB
Azure Synapse Analytics and Data Lake
Machine Learning and Cognitive Services
GitHub Integration, Azure Migrate

Google

Workspace Integration, Cloud Data Flow
SQL—MySQL, PostgreSQL, SQL Server
AI—TensorFlow, AutoML

IBM

IBM Cloud Foundry, Kubernetes Services
IBM Watson, Cloud Back for Data
IBM Cloud Security, Keep Protect
IBM Code Engine, Continuous Delivery

Highlights from our Journey

- **SOA Software Development and IT Support Services**
Client: United States Citizenship and Immigration Services
Project Budget: \$12.5M
- **Legal Case Management System**
Client: Florida Management Services
Project Budget: \$0.50M
- **Cyber Security and Technology Business Management**
Client: Washington State Enterprise Services
Project Budget: \$5.6M
- **Eligibility Process Automation**
Client: Department of Health and Social Services
Project Budget: \$12.50M
- **High Availability PCI Compliance Cloud Solution**
Client: Texas Dept of Transportation
Project Budget: \$1.1M
